We the committee on resolution wish to submit the following: Be it Resolved

First—That we as a organization known as the National Educational and Co-operative Union of America, declare that whereas there has been circulated certain reports that this organization has antagonized the interests of Marion is false and untrue. Further more, be it resolved

That we do endorse and are in harmony with every class of legitimate business. We further denounce every character of lawlessness and discord that hinders happiness and progress in our country. Our Motto is to establish justice, to secure equity, to apply the Golden Rule, to strive for harmony and good will among all mankind and brotherly love among ourselves.

Be it further Resolved

could put himself in and me, too. Then we all went down to the lane toward Buffalo and—said that he would get over into the fence corner and get the man out to take us in. —told me to lie down on my right knee, and I got down, and he got down. He told me to hold up my right hand, and he took a piece of paper out of his coat pocket and read the oath to me I cannot repeat the oath.

"After giving the oath which was to the effect that if I gave it away I would be killed and ended 'so help me God' he said to me if you do not understand the oath it means this—if you ever tell it that a clique of them would take my head.

"Told me that on Monday night they were going to have a meeting down in an old field close to Jeff Kimbro's, I told him I did not know the way. He said come down the road and you will meet some of them who would show me the way, I went on Monday night to — and called out, and we went on to and called out. He was sick and couldn't go.

came there while we were talking to. We went on to 's and called out and he said he couldn't go. He would go as they came on back. Right below 's we met and and they joined our crowd. We went on to the meetingplace in an old field close to Jeff Kimbro's.

"Just before getting to the old field all that had masks put them on Affiant had none but was furnished one soon after he got there. That group kept coming up from different directions, but when they reached there they were masked. That he recognized Joe Bell and that Joe Bell lined us up two and two and told us to ride on farther then ten feet and if attacked on the right those on the left do the shooting. We lined up and rode on about 175 or 200 strong. We went on and got just below Mollory school house.

"Some fellow says, 'I am awful tired I want to get up yonder and hit that forty or fifty, and I think that will rest me.'

"We went on to below Noah Moody's and got down and hitched our horses, and about half of them stayed with their horses. The other half went on to Al Perry's. Some one of the leaders said if Perry fired for all of us to open fire on him. They told us to lie down around the house. We went to the house and surrounded the house and laid down as ordered. Capt Bell called for Al Perry. Said hello to Mr. Perry two or three times. He came out. The leaders had a talk with him and left it to vote as to whether they would whip him or not, and they voted to whip and whipped him. We then went on back to our horses and left. I dropped out before John Morgan's and went home. I lost a sack that night.

"Before we got on our horses the leaders halloed for No. 2. clique, and I answered. Told me to start next morning by daylight or a little before and over in the bottom where we came through, and it was so dark, and by Mollory's school house and pick up all the hats and caps I could find and cut them up and stick them under a log or logs. I did as directed except that I put them in the creek. I found a cap or two and a hat or two."

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablets—sends blood pressure away from pain centers. Its effect is charming, pleasantly delightful, gentle, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Brise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply common sense. We sell at 25 cents, and cheerfully recommend

LASCARS ON BRITISH SHIP

England Seriously Concerned Shortage of Seamen to Merchant Marine

England has been concerned over the shortage of seamen for some time. Lascars have now become a native product. In 15 years there has been an increase of 17,103 of these East Indian seamen as against 510 Britishers. The queue of lascars is growing. They are snatched from the East and sent to the British merchant marine. They are less than the English in intelligence, but they are more than the English in endurance. It is stated that there has been no uncommon thing to find a ship's crew composed of eight or nine nationalities with absolutely no language in common, and perhaps a boatman who only understands English as an interpreter. The return of lascars to seamen employed in the British mercantile marine shows 30 English and Irish per 10,000, while Scotland supplies 56 and Wales 44.—Harper's Weekly.

FEW BEAUTIFUL WOMEN.

"A really beautiful woman is scarcely ever seen, not even in Great Britain, where average good looks are pleasantly paramount," declares Marie Corelli. "Prettiness—the prettiness which is made up of a good skin, bright eyes, soft and abundant hair, and a supple figure—is quite ordinary. It can be seen every day among barmaids, shop girls and milliners' mannequins. But beauty—the divine and subtle charm which enraptures all beholders—the perfect form, united to the perfect face, in which pure and noble thought is expressed in every feature, in every glance of eye, in every smile that make a sweet mouth sweeter—this is what we may search for through all the isles of Britain, and through Europe and America and the whole world beside, and seldom or never find it."

"BE A CORKER."

The man who cannot carry into his place of business some element of hopefulness had better take a day's vacation by visiting some unfortunate worse off than himself and then go back to his work feeling that he has reason to be ashamed of himself. Do not be a sinker, but it's worth the powder if only you corker. In nine cases out of ten, when "the times are out of joint," it's you, mainly, that is "out of joint." You need a straight-out talking to, by somebody who is large-hearted enough to love you with all your faults, and courageous enough to fire the truth at you.

POINTED REMINDER.

Man with the Bulging Brow—The idea of women meddling with politics! What do they know about it? Do you suppose they have the slightest conception of what you mean, for instance, when you talk about the "big stick?"

Man with the Bulbous Nose—That only shows that you don't know how many uses a woman can make of a steel hatpin.

HIDDEN DANGERS

Nature Gives Timely Warnings That no Marion Citizen Can Afford to Ignore.

DANGER SIGNAL, NO. 1 comes from the kidney secretion. They will warn you when the kidneys are sick. Well kidney excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pains dull and heavy or sharp and acute tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here's Marion proof:

J. B. Tharp, living on Cherry St., Marion, Ky., says: "Doan's Kidney Pills proved of such great benefit to my wife that I am pleased to say a

word in their praise. She had suffered for years from a lame back and occasionally she was compelled to arise during the night on account of the too frequent action on the kidney secretions which were scanty in flow and filled with a sediment. I do not think I ever knew of anyone who suffered so severely from headaches as she did and she was also subject to dizzy spells. I became considerably alarmed about her condition as the various remedies she used proved of no benefit. I finally heard about Doan's Kidney Pills and as they were so highly recommended I procured a box for her at Haynes & Taylor's drug store, and she began taking them according to directions. They invigorated her system in every way and in a short time she was completely cured. I am glad to recommend Doan's Kidney Pills to other sufferers of kidney trouble.

WOULD THERE TO BE A HELL?

By REV. A. C. DIXON, D. D., Pastor of the Chicago Ave. Moody's Church, Chicago.

The bad ought to be separated from the good. The word Gehenna, translated "hell" in the New Testament, was the name given in the valley of Hinnom, near Jerusalem, into which the garbage of the city was cast and burned. At any time of day or night the fires, with their ascending smoke, could be seen in this valley. Jesus makes it a symbol of hell "where the worm dieth not and the fire is not quenched."

Now, ought a city to have a valley of Hinnom into which the refuse shall be cast? Or should the city leave its refuse to decay in its streets, filling the air with contagion and death? There are no two opinions on this subject among civilized people. Every garbage barrel, therefore, is an argument for hell. Those who refuse life in Christ become "refuse" in character sooner or later, and in the nature of things must be removed to a place apart.

A cemetery is a necessity. The bodies of the dead must not be left in the homes of the living. Every cemetery is, therefore, an argument for hell. The spiritually dead soul is like a dead body, in that it is in a state of moral putrefaction and carries with it the deadly contagion of sin. If it refuses to receive life it

must of necessity be placed in a place where it is spiritually dead. Gehenna, translated "hell" in the New Testament, was the name given in the valley of Hinnom, near Jerusalem, into which the garbage of the city was cast and burned. At any time of day or night the fires, with their ascending smoke, could be seen in this valley. Jesus makes it a symbol of hell "where the worm dieth not and the fire is not quenched."

Even savages believe that what they regard as sin should be punished, and civilized nations have no difference of sentiment in that regard. It needs to be stated that there is something in God for sinners to fear. He is no moral weakling who, prompted by soft sentimentalism, permits criminals to destroy his righteous government. The preaching of this gospel of putty has been long enough filling hell, here and hereafter, with victims.

Sin left to itself makes hell. "Wickedness," says Isaiah, "burneth like a fire."

In the parable of the rich man and Lazarus the fires of torment have flames of memory, reason, imagination and conscience. "Son, remember." Memory is immortal and will pass into the future freighted with the burden of neglected duties and privileges. The rich man uses the word "therefore," which shows that reason is immortal. He requests Abraham to startle his five brethren by the return of Lazarus from the dead, and this shows that imagination is also immortal to fan the flames of memory and reason. And every line of the parable bears witness to the fact that conscience is immortal, with its sting of remorse.

The fires which burn the soul are hotter than the fires which consume the body. Pollock's description of hell in his "Course of Time" makes one shudder, and yet if you will give his words the symbolic meaning he intended you are compelled to acknowledge their truth.

"Through all that dungeon of unfading fire I saw most miserable beings walk. Burning continually, yet unconsumed; Forever wasting, yet enduring still; Dying perpetually, yet never dead."

I know that such a hell exists, for I have been there, and I have seen men and women on this earth "burning continually, yet unconsumed; forever wasting, yet enduring still; dying perpetually, yet never dead." It is but another way of expressing what the Bible means by the "bottomless pit"—forever falling without striking bottom, forever sinking in the moral scale, forever growing worse, and yet not becoming so bad that you cannot grow worse still. Everlasting degeneration! The soul with infinite capacity for good or evil chooses the evil and develops downward through eternity. Death will not retard, but in the worse environment of a place apart will accelerate the downward course.

A coarse wit asked an old preacher where he would get all the brimstone for making an orthodox hell, and his wise reply was: "Every man will furnish his own brimstone."

Degrees of Punishment.

This principle is admitted by every court of justice. Jesus said of the wicked: "These shall go away into everlasting punishment," and the same word, "everlasting," applies to heaven. It does not mean "equal" or "indefinite." Everlasting punishment will certainly follow everlasting sinning, the degree of punishment being in proportion to the sin. It is reasonable to conclude that if a man will not repent in this world with an environment of good and evil, he will not repent in the world apart, where there is environment of only evil.

He who has accepted Jesus Christ as sin-bearer and Lord need have no fear of hell. In getting rid of sin he has put out the fires that make hell here and hereafter.
